What is Do No Harm?

- A tool that helps the user/practitioner to better understand the context
- How assistance and aid interact
 - ***actions*** and ***behaviors***
- to minimize the negative impacts and maximize the positive impacts.

Why Do No Harm?

- How can **development aid make conflicts worse-or better?**
- What are the important **effects of aid work in different contexts?**
- What are the **effects of the context on the aid work?**
- What are some **practical methods** for incorporating conflict sensitivity into **context analysis** and program?
- How can conflicts sensitivity efforts be **effectively monitored and evaluated?**

DO NO HARM TRAINING OF TRAINER

Upon the training, you will:

- Have a better understanding how aid interacts with conflict dynamic.
- Have ability to minimize to negative impacts of your intervention.

09-13 September 2019

08.00 - 17.00
