FOREWORD

The Co-operation Committee for Cambodia is pleased to share the latest edition of the Agency Contact Listing 2009. The Agency Contact Listing remains one of the most useful publications for facilitating and promoting the exchange of information amongst NGOs and the development community in Cambodia.

The Agency Contact Listing 2009 features organization contact and staff details for 645 organizations working in development in Cambodia. The organizations are divided into 5 types and presented alphabetically.

The Agency Contact Listing is distributed free of charge to CCC Members and a selected target audience. This publication is made possible through the support and contributions of the CCC Member organizations.

I would like to thank everyone who has provided information for this publication and CCC staff for their team effort to update this publication. We appreciate any assistance in identifying new or updated information on agencies for this publication as we try to include as many agencies as possible. Please send us any changes in agency contact details via email so we may regularly update our NGO database and the NGO Search Page.

Finally, please note that some agencies have requested not to be listed in this publication. In addition, some organization's data could not be fully verified as CCC could not contact them for validation so they have been omitted. Although, at CCC, we have attempted our best to ensure accurate data compilation, it is humanly possible that unintentional omissions or errors may have incurred during the data entry process.

CCC welcomes comments and suggestions on how to improve this publication for the future.

Sincerely,

Borithy LUN
Executive Director
October 2009

ABOUT CCC

The Cooperation Committee for Cambodia (CCC) is a membership organization of over 100 Cambodian and International NGOs. Our vision is for a *strong and capable civil society, cooperating and responsive to Cambodia's development challenges. Our strategic goals are to:*

- *Strengthen the collective voice of civil society*
- *Enhance effective co-operation across civil society*
- *Influence the thinking and practice of Cambodia's development partners*
- *Deliver high quality services appropriately responding to the true needs of non-government organisations.*

NGO's all have different needs and our shared values of integrity, co-operation, responsiveness and quality help us ensure that we work in an inclusive and supportive way to strengthen the whole NGO sector.

CCC provides a range of services and also responds to particular issues as they arise. For example in the last year CCC has been providing a lead role in relation to Aid Effectiveness, raising awareness amongst NGOs across the country and also promoting the role of civil society with development partners and government. It is clear that the demand for good governance and accountability is growing and CCC is committed to ensuring the NGO community is well prepared to meet these challenges and better serve the people and communities they work on behalf.

The work we do and the services we provide:

- The Voluntary NGO self-certification system that enhances NGOs organizational quality and encourages good practice in governance and accountability.
- A resource centre, publications and a project to improve the information, communications and technology functions.
- Forums and training for members that include human relations, finance, organisational development and program development and management.
- The Analysing Development Issues (ADI) project provides research training to NGO leaders and officers to have better critical analysis and strategic thinking skills. It produced number of research papers on various issues and some of them were presented to the national development forums to disseminate research findings.
- CCC co-ordinates cross- sectoral activity for NGOs in response to the proposed NGO law.
- Aid effectiveness awareness raising workshops on Aid Effectiveness
- Liaison and dialogue with government and development partners on the global and national demand for accountability.
- CCC participates in and supports a variety of existing networks. CCC also is a member of the Partnership and Harmonisation Technical Working Group.

CCC is now acknowledged as being a major and unique driving force to champion internal good governance and accountability in the NGO sector in Cambodia.

For more information on CCC, please contact the CCC office, or visit our website:

Vision:

A strong and capable civil society, cooperating and responsive to Cambodia's development challenges.

Mission:

As a professional association of non-government organisations in Cambodia, the Cooperation Committee of Cambodia provides high quality services to civil society and influences Cambodia's development partners with our collective voice.

Values:

- *Integrity
- *Responsiveness
- *Cooperation
- *Quality
